

ADVANCED MATH SUMMER CAMP

For Olympiad aspirants, future researchers and schools pursuing excellence.

support@cheenta.com

CHEENTA

Cheenta is a premier institute of mathematical science and olympiad training since 2010. Our students and faculty members are from research centres in Indian Statistical Institute, Chennai Mathematical Institute, Oxford, Harvard, MIT to name a few

ABOUT MATH SUMMER CAMPS

Cheenta Math Summer camps are useful for introducing advance math concepts to curious school students. They are particularly useful for an exposure in Math Olympiad styled contests and research in premier universities all around the world.

JUNIOR CAMP (GRADE 5, 6)

Number Theory using elementary coding for olympiads

INTERMEDIATE CAMP (GRADE 7, 8)

Graph Theory and Inequality for Olympiads

SENIOR CAMP (GRADE 9 AND ABOVE)

Number Theory and Combinatorics for olympiads

4 WEEKS DURING
SUMMER VACATION

ONLINE, LIVE
SESSIONS, TWICE
EVERY WEEK

MEET THE MAKERS

CREATORS

Cheenta has a 40-member strong team comprising of mathematicians, data scientists, researchers and olympians from leading universities in India, United States and Europe.

Srijit Mukherjee

BStat and MStat from Indian Statistical Institute (India)
Director at Cheenta

Dr. Ashani Dasgupta

PhD from University of Wisconsin-Milwaukee (USA)
Founder - Director at Cheenta

Dr. Sankhadip Chakraborty

BSc. Math from Chennai Mathematical Institute (India),
PhD from IMPA
Director at Cheenta

Dr. Anirban Majumdar

PhD from ENS Paris-Saclay, France on Theoretical Computer Science, B.Sc.-M.Sc. from Chennai Mathematical Institute

Swarnabja Bhowmick

B.Tech from Calcutta University on Computer Science with multiple IEEE publications on Artificial Intelligence and Machine Learning

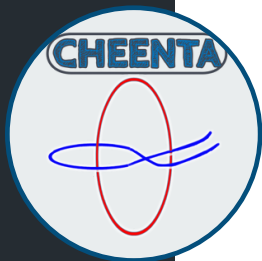

AR Sricharan

BSc. Math, M.Sc. Computer Science from Chennai Mathematical Institute (India). Pursuing PhD in University of Vienna

WHO WE ARE

Cheenta is an advanced Mathematical Science training school for gifted students. Cheenta has trained thousands of students from over 8 countries for Olympiads, Research Projects and Science Fairs since 2010.

MISSION

Cheenta has historically collaborated with several schools in India and the United States to provide special training for the most promising children these institutions.

In partnership with schools and institutions we run research projects, teacher's training, **summer camps** and advanced olympiad training programs. Several of our programs are directed at rural schools. In particular we have consistently worked with economically backward section of the society to spread world class education opportunities at an affordable cost.

Cheenta students are spread all around the world at leading research universities such as Harvard, MIT, Oxford, UCLA, IIT, Indian Statistical Institute, Chennai Mathematical Institute to name a few places. They have consistently achieved global ranks in the most challenging mathematical Olympiads and science fairs since 2010.
